

DJ Gulch

DJ Andy Gulch is a professional DJ based in The Midlands, available to travel throughout the world.

Although specialising in Mainstream Commercial Dance and R&B, Andy is keen to play to suit the crowd and venue, therefore will turn his hand to any commercial genre, including Pop, Cheese and Indie right through to Hip-Hop, Garage and Trance. Skilled with a microphone, he enjoys working the crowd and has an enthusiastic and energetic style.

He keeps things up-to-date and is registered with a number of mailout lists, most notably, Hyperactive, Power and The Ministry of Sound. This ensures you get to hear all the latest tracks months before their release. If something is going to be big, your customers will hear it first.

Andy has worked hard to increase attendance, promoting his nights online and via bulk text message. This has been successful in boosting the number of people through the doors. Andy has performed on a wide range of bills, including main room, student and single-genre nights.
